

# ST CATHERINE'S COLLEGE

A CHURCH OF ENGLAND ACADEMY

## Unit 1: Number and Calculations

Topic	Success Criteria	MATHS WATCH CLIP
Time	<ul style="list-style-type: none"><li>Convert hours and minutes into decimal format</li></ul>	Clip N7b
The Four Operations	<ul style="list-style-type: none"><li>Add and subtract positive and negative numbers mentally and using written methods</li><li>Multiply and divide positive and negative numbers mentally and using written methods and use written division methods in cases where the answer has up to two decimal places</li><li>Solve multi-step problems involving addition, subtraction and/or multiplication and division</li><li>Understand and use negative numbers when working with temperature and other contexts</li></ul>	Clip 17 Clip 18 Clip 68a Clip 19 Clip 20 Clip 68b Clip 21 Clip 23
BIDMAS	<ul style="list-style-type: none"><li>Know that addition and subtraction have equal priority</li><li>Know that multiplication and division have equal priority</li><li>Know that multiplication and division take priority over addition and subtraction</li><li><u>Use order of operations including brackets and indices</u></li></ul>	Clip 75
Prime Numbers/HCF/LCM	<ul style="list-style-type: none"><li>Recall prime numbers up to 30 <u>or</u> 50</li><li>Know the meaning of a common multiple (factor) of two numbers</li><li>Identify common multiples (factors) of two numbers</li><li>Know the meaning of 'highest common factor' and 'lowest common multiple' and use these to solve problems, <u>using prime factor decomposition</u></li></ul>	Clip 28 Clip 79 Clip 80 Clip 78
Powers and Roots	<ul style="list-style-type: none"><li>Know the first 12 or <u>15</u> square numbers</li><li>Know the first 5 cube numbers and <math>10^3</math></li><li>Recognise real roots (square, cube and <u>higher</u>)</li><li>Estimate powers and roots of any given positive number</li></ul>	Clip 81 Clip 82
Key words	Calculate, Celsius, cube, Fahrenheit, real, truncate	

# ST. CATHERINE'S COLLEGE

A CHURCH OF ENGLAND ACADEMY

## Unit 2: Algebraic Simplifying, Manipulation and Sequences

Topic	Success Criteria	MATHS WATCH CLIP
Concepts and vocabulary	<ul style="list-style-type: none"><li>Know the meaning of expression, term, formula, equation, function</li><li>Know the basic algebraic notation (rules of algebra)</li><li><b>Identify expressions, equations, formulae and identities</b></li></ul>	
Simplifying terms	<ul style="list-style-type: none"><li>Simplify an expression by collecting like terms</li><li>Simplify an expression involving multiplication and division</li></ul>	Clip 33 Clip 34 Clip 35
Indices	<ul style="list-style-type: none"><li>Know and use the laws of indices</li><li><b>Calculate with negative indices</b></li></ul>	Clip 29 Clip 131 Clip 82 Clip 188 Clip 154
Manipulating Algebra	<ul style="list-style-type: none"><li>Expand an expression involving a single bracket</li><li>Factorise an expression into a single bracket</li><li><u>Expand an expression involving double brackets</u></li><li><b>Factorise an expression into double brackets</b></li></ul>	Clip 134a Clip 94 Clip 134b Clip 93
Substitution	<ul style="list-style-type: none"><li>Substitute positive numbers into expressions and formulae</li><li>Substitute negative numbers into expressions and formulae</li><li><u>Use science and maths formulae for substitution - including distance, speed and time and rates of pay</u></li></ul>	Clip 95
Generating Sequences	<ul style="list-style-type: none"><li>Drawing patterns for sequences</li><li>Continue sequences and find missing terms</li><li>Continue special sequences (inc. triangular, square and cube numbers, Fibonacci and quadratic)</li><li>Generate a sequence from the term-to-term rule</li></ul>	Clip 37
Nth Term	<ul style="list-style-type: none"><li>Generate a sequence from the nth term</li><li>Find the nth term of a linear sequence</li><li><u>Generate a quadratic sequence</u></li></ul>	Clip 102 Clip 103
Key words	Even, Identify, notation, odd, prove, sequence	

# ST. CATHERINE'S COLLEGE

## Unit 3: Calculating with Fractions and Decimals, Rounding and FDP

Topic	Success Criteria	MATHS WATCH CLIP
Fractions	<ul style="list-style-type: none"><li>• Change between mixed numbers and top heavy fractions</li><li>• Add and subtract fractions when the denominator is the same and/or different <u>and mixed numbers</u></li><li>• Multiply and divide fractions <u>and mixed numbers</u></li><li>• Find fractions of amounts</li></ul>	Clip 71a Clip 71b Clip 73 Clip 74 Clip 72
Decimals	<ul style="list-style-type: none"><li>• Add and subtract decimal numbers</li><li>• Multiply numbers by 10, 100, 1000</li><li>• Multiply and <u>divide decimals</u></li></ul>	Clip 30,66,67
Rounding	<ul style="list-style-type: none"><li>• Round to the n. whole number, 10, 100 and 1000</li><li>• Round numbers to a specified number of dp</li><li>• <u>Round numbers to a specified number of significant figures for no. larger than 1 and smaller than 1.</u></li><li>• <b>Error intervals and truncating</b></li></ul>	Clip 155
Estimation	<ul style="list-style-type: none"><li>• Estimate answers to calculations <u>by rounding to 1 significant figure.</u></li><li>• Check calculations using approximation and estimation</li></ul>	Clip 90 Clip 91
Standard form	<ul style="list-style-type: none"><li>• <u>Write big and small numbers in SF</u></li><li>• <u>Multiply and divide numbers in standard form.</u></li><li>• <u>Add and subtract numbers in standard form.</u></li></ul>	Clip 83
Ordering fractions, decimals and Percentages	<ul style="list-style-type: none"><li>• Convert between fractions, decimals and percentages</li><li>• Use conversions to order fractions, decimals and percentages</li><li>• <b>Change recurring decimals into fractions</b></li></ul>	Clip 84  Clip 85 Clip 177
Key words	Standard Form, Truncate, Estimate, Recurring	

# ST. CATHERINE'S COLLEGE

A CHURCH OF ENGLAND ACADEMY

## Unit 4: Calculating with Percentages

Topic	Success Criteria	MATHS WATCH CLIP
Calculating Percentages/Reverse/ Increase/Decrease	<ul style="list-style-type: none"><li>• Find a percentage of an amount without a calculator</li><li>• Use calculators to find a percentage of an amount</li><li>• Increase/decrease an amount by a percentage</li><li>• <u>Introduce multipliers</u></li><li>• <u>Increase/decrease and amount using multipliers</u></li><li>• <u>Calculate the percentage change in a given situation, including percentage increase / decrease and reverse percentages</u></li></ul>	Clip 40 Clip 86 Clip 87 Clip 108 Clip 109 Clip 110
Compound interest/depreciation	<ul style="list-style-type: none"><li>• <b>Be able to calculate compound interest and depreciation</b></li><li>• <b>Be able to answer real world problems involving compound interest and depreciation.</b></li></ul>	Clip 164
Key words	Multipliers, Percentage Increase, Percentage Decrease, Compound interest, original, recurring, simple interest	

## Unit 5: 2D and 3D Shapes

Topic	Success Criteria	MATHS WATCH CLIP
Names of Shapes	<ul style="list-style-type: none"><li>Know the names of 2D shapes and be able to identify them from their properties</li></ul>	Clip 43
Properties of 3D Solids	<ul style="list-style-type: none"><li>Know the notation used for angles, equal lengths and parallel lines</li><li>Know the number of faces, edges and vertices for solids</li><li>Know the names and properties of solids (cubes, cuboids, prisms, cylinders, pyramids, cones and spheres)</li></ul>	Clip 43
Plans and Elevations	<ul style="list-style-type: none"><li>Draw plans and elevations of solids</li></ul>	Clip 51
Area and Perimeter	<ul style="list-style-type: none"><li>Calculate the area and perimeter of rectangles, triangles, parallelograms and trapezia</li><li>Calculate the area and perimeter of compound shapes made from rectangles and triangles</li></ul>	Clip 52 - 56 Clip 114-115 Clip 119 Clip 169-170
Circles	<ul style="list-style-type: none"><li>Be able to name and label parts of a circle</li><li>Know the formulae for calculating the circumference and area of a circle</li><li>Calculate the circumference and area of a circle when given diameter or radius</li><li><u>Find the area and perimeter of parts of circles</u></li></ul>	Clip 116 Clip 117 Clip 118  Clip 167
Volume and Surface area	<ul style="list-style-type: none"><li>Calculate the volume of cuboids and prisms</li><li>Calculate surface area of cuboids <u>and other prisms</u></li><li><b>Volume and Surface area of cylinders, spheres, pyramids and cones</b></li></ul>	
Key words	chord, cone, cuboid, cylinder, elevation, kite, parallelogram, properties, pyramid, rhombus, sector, segment, sphere, tangent, trapezia, trapezium	

## Unit 6: Ratio and Proportion

Topic	Success Criteria	MATHS WATCH CLIP
Simplifying ratios	<ul style="list-style-type: none"><li>• Use ratio notation</li><li>• Simplify 2 and <u>3 part</u> ratios by cancelling common factors</li><li>• Simplify ratios when units are different and convert between units</li><li>• <u>Find ratios in the form of 1:n and n:1</u></li></ul>	Clip 38
Combining Ratios	<ul style="list-style-type: none"><li>• <b>Problems involving A:B and B:C</b></li></ul>	Clip 38
Sharing using a ratio	<ul style="list-style-type: none"><li>• Divide a quantity into a ratio</li></ul>	Clip 106
Proportion problems	<ul style="list-style-type: none"><li>• Use ratio to solve real life problems (e.g. recipes and best buy problems)</li></ul>	Clip 42
Exchanging Money	<ul style="list-style-type: none"><li>• <u>Use an exchange rate to calculate currencies</u></li></ul>	Clip 105
Direct and Inverse Proportion	<ul style="list-style-type: none"><li>• <u>Understand the idea of direct and inverse proportion</u></li><li>• <u>Solving simple direct proportion problems</u></li></ul>	Clip 199
Key words	Currency, Exchange, proportion	

## Unit 7: Angles

Topic	Success Criteria	MATHS WATCH CLIP
Measuring and construction	<ul style="list-style-type: none"><li>• Be able to use a protractor</li><li>• Draw acute, right-angled, obtuse and reflex angles</li><li>• Use compass to construct clean arcs</li><li>• Be able to construct a triangle from a written description</li><li>• Be able to construct triangles using SSS, SAS, ASA rules</li></ul>	Clip 46
Angles in triangles	<ul style="list-style-type: none"><li>• Know that angles in a triangles total <math>180^\circ</math></li><li>• Find missing angles in triangles</li><li>• Find missing angles in equilateral and isosceles triangles</li></ul>	Clip 121
Angles in quadrilaterals	<ul style="list-style-type: none"><li>• Know that angles in quadrilaterals total to <math>360^\circ</math></li><li>• Know properties of quadrilaterals (inc. square, rectangle, <u>parallelogram</u>, <u>trapezium</u>, <u>kite</u> and <u>rhombus</u>)</li><li>• Find missing angles in quadrilaterals</li></ul>	Clip 10
Angle facts	<ul style="list-style-type: none"><li>• Identify angles at a point, angles at a point on a line and vertically opposite angles</li><li>• Use knowledge of angles to calculate missing angles in geometrical diagrams</li></ul>	Clip 45
Angles in Parallel Lines	<ul style="list-style-type: none"><li>• <u>Identify alternate angles and know that they are equal</u></li><li>• <u>Identify corresponding angles and know that they are equal</u></li><li>• <u>Use knowledge of alternate and corresponding angles to calculate missing angles in geometrical diagrams</u></li></ul>	Clip 120
Angles in Polygons	<ul style="list-style-type: none"><li>• <u>Use the fact that angles in a triangle total <math>180^\circ</math> to work out the total of the angles in any polygon</u></li><li>• <u>Establish the size of an interior angle in a regular polygon</u></li><li>• <u>Know the total of the exterior angles in any polygon</u></li><li>• <u>Establish the size of an exterior angle in a regular polygon</u></li></ul>	Clip 123
Angle reasoning	<ul style="list-style-type: none"><li>• <u>Solve angle problems using equations</u></li><li>• Solve geometric problems showing reasoning</li></ul>	
Key words	Geometry, Co-interior , Exterior, Interior	

## Unit 8: Statistics

Topic	Success Criteria	MATHS WATCH CLIP
Averages	<ul style="list-style-type: none"><li>Calculate the mean, median, mode and range of a set of numbers</li></ul>	Clip 62
Averages from Tables	<ul style="list-style-type: none"><li>Find the mean, mode and <u>median</u> from frequency tables</li><li><u>Find the mean, mode and median from grouped frequency tables</u></li></ul>	Clip 130a Clip 130b
Cumulative Frequency	<ul style="list-style-type: none"><li><b>Be able to draw a cumulative frequency diagram</b></li><li><b>Use a cumulative frequency diagram to find the median and quartiles of data</b></li></ul>	Clip 186
Calculating Quartiles	<ul style="list-style-type: none"><li><b>Be able to calculate the median, lower quartile, upper quartile and interquartile range of a set of data</b></li></ul>	Clip 186
Box Plots	<ul style="list-style-type: none"><li><b>Be able to plot a box plot from a set of data</b></li><li><b>Be able to make comparisons between box plots</b></li></ul>	Clip 187
Scatter Graphs	<ul style="list-style-type: none"><li><u>Be able to plot a scatter graph</u></li><li><u>Be able to plot a line of best fit and use it to make estimations</u></li></ul>	Clip 129
Pie Charts	<ul style="list-style-type: none"><li>Be able to draw a pie chart</li><li>Be able to compare pie charts</li></ul>	Clip 128a
Stem/Leaf Diagrams	<ul style="list-style-type: none"><li>Be able to draw a stem and leaf diagram</li><li>Find averages from a stem and leaf diagram</li></ul>	Clip 128b
Frequency Polygons	<ul style="list-style-type: none"><li><u>Be able to draw a frequency polygon</u></li></ul>	Clip 65b
Time Series	<ul style="list-style-type: none"><li><u>Draw and interpret time series</u></li><li><u>Use trends to make predictions about the future</u></li></ul>	Clip 153
Key words	Box plot, comparison, cumulative, cumulative frequency, frequency polygon, interpret, interquartile, quartile, stem and leaf, time series	

## Unit 9: Equations and Inequalities

Topic	Success Criteria	MATHS WATCH CLIP
Function machines	<ul style="list-style-type: none"><li>Find the output on a single and multi-step function machine</li><li>Use inverse operations to find the input on a function machine</li></ul>	Clip 36
Solving equations	<ul style="list-style-type: none"><li>Solve one step equations using inverse operations or the balancing method</li><li>Solve multi step equations using inverse operations or the balancing method</li><li><u>Solve equations with unknowns on both sides</u></li><li><u>Form and solve equations</u></li></ul>	Clip 135a Clip 135b
	<ul style="list-style-type: none"><li><u>Rearrange simple formulae <math>w + 6 = y</math> (<math>w</math>)</u></li></ul>	Clip 136
Representing Inequalities	<ul style="list-style-type: none"><li>Represent an inequality on a number line</li><li>Write a solution set for an inequality</li></ul>	Clip 138
Solving Inequalities	<ul style="list-style-type: none"><li>Solve a linear inequality with only positive variables</li><li><u>Solve a linear inequality with negative variables</u></li><li><u>Solve an inequality with two variables</u></li><li><b>Solve inequalities with three parts</b></li></ul>	Clip 139
Key words	Inequality, unknown, variable, Linear	

## Unit 10: Probability and Venn Diagrams

Topic	Success Criteria	MATHS WATCH CLIP
Introduction	<ul style="list-style-type: none"><li>Understand what probability is</li><li>Be able to describe the probability</li><li>Plot probability on a number line</li></ul>	Clip 14
Theoretical Probability	<ul style="list-style-type: none"><li>List all the outcomes for an event or experiment</li><li>Recognise when it is not possible to work out a theoretical probability for an event</li><li>Work out theoretical probabilities for events with equally likely outcomes</li></ul>	Clip 59
Probability Space	<ul style="list-style-type: none"><li>Construct theoretical probability spaces for combined experiments with equally likely outcomes</li><li>Calculate probabilities using a probability space</li></ul>	Clip 126
Combined Probability	<ul style="list-style-type: none"><li>Use frequency trees</li><li><u>List outcomes of combined events using a tree diagram</u></li><li><u>Use a tree diagram to calculate probabilities of independent combined events</u></li><li><b>Use a tree diagram to calculate probabilities of dependent combined events</b></li></ul>	Clip 57 Clip 65 Clip 151 Clip 175
Venn Diagrams	<ul style="list-style-type: none"><li><u>Use Venn diagrams to work out probability</u></li><li><u>Understand the language of sets and Venn diagrams</u></li></ul>	Clip 185 Clip 127a Clip 127b
Key words	combined, frequency tree, outcome, prediction, probability, probability space, probability tree, set, theoretical tree diagram, Venn diagram,	

## Unit 11: Graphs

Topic	Success Criteria	MATHS WATCH CLIP
Coordinates	<ul style="list-style-type: none"><li>Plot and write coordinates in positive or <u>negative</u> quadrants</li><li>Identify and plot points on a grid</li><li>Find the midpoint of a line</li></ul>	Clip 8
Straight Line Graphs	<ul style="list-style-type: none"><li>Complete a table of values</li><li>Plot a straight line on a graph</li><li><b>Plot graphs of the form <math>2x + 3y = 12</math></b></li></ul>	Clip 96
Gradients	<ul style="list-style-type: none"><li><u>Find the gradient of a line algebraically and graphically</u></li><li><u>Use <math>y = mx + c</math> to identify parallel and perpendicular lines</u></li><li><u>Find the equation of a line when given a point and gradient</u></li><li><b>Find the equation of a line when given two points</b></li></ul>	Clip 159b Clip 159a
Distance/Time Graphs	<ul style="list-style-type: none"><li>Draw and interpret distance/time graphs</li><li><u>Calculate the speed from a distant time graph</u></li></ul>	Clip 143
Key words	Distance, gradient, speed
