Behaviour in Lessons	I actively listen and engage at all times and seek feedback on how to improve the quality of my work. My behaviour always contributes and enhances mine and others' learning.	I engage with good interest in my learning, am attentive and focused and respond well to feedback and targets. My behaviour always contributes to mine and others' learning.	I often engage in lessons and am generally focused but I may not try hard enough to improve my work after feedback. My behaviour is inconsistent and does not always support my learning.	I make little effort to engage or focus. I fail to act on feedback provided and consequently I make limited progress. My behaviour disrupts mine and others' learning.
Work Rate in Lessons	I manage my time and work efficiently and independently. I complete work enthusiastically and look to extend whenever I can.	I willingly do what is asked of me and sometimes, more. I work consistently hard to achieve good outcomes in most cases.	I do the minimum work requested of me and no more without direction. My work and effort reflects a desire to not be noticed.	I actively choose not to manage my time, work and organisation. I have little pride in my work.
