

BBC Bitesize Careers

On Friday 29 November 2024, St Catherine's College had the privilege of hosting the prestigious BBC Bitesize Careers Roadshow. This highly anticipated event brought together local professionals to share their career journeys and insights with our students. It was an inspirational day filled with guidance and interaction, providing invaluable exposure to the world of work.

There was a full one-hour session for all the year 7 to 10 students, featuring an engaging panel-style discussion, led by Skateboarder and BBC Radio 1 and BBC Sports presenter, **James Threlfall**.

We are very grateful to the panelists who shared their extraordinary experiences:

- **Neil Jones**, General Manager, Eastbourne Theatres.
- **Hanna Neter**, Senior Journalist, BBC.
- **Jennifer Lloyd**, a Software Test Engineer at McLaren Applied.

Whether you're deciding what to study, planning your future career or just curious about the world of work, there's lots of helpful information on the [BBC Bitesize Careers website](#).
